Ease of Installation	✓	✓
No Negative Impact to Environment	✓	✗
No Odor	✓	✗
Safe to Use no PPE Required	✓	✗

African Horizon TECHNOLOGIES

Typical Dissoil Applications

- Oil Industry
- Petroleum Refinery
- Mining Industry
- Bioremediation
- Water Quality
- Waste Treatment
- Household Cleaning Products
- Agriculture
- Industrial Microbiology
- Bioremediation

Oil H2o Generation Ratio

1 : 1 000 000 liters

Concentration

The application of microbes and enzymes to comply with the environmental legislation.

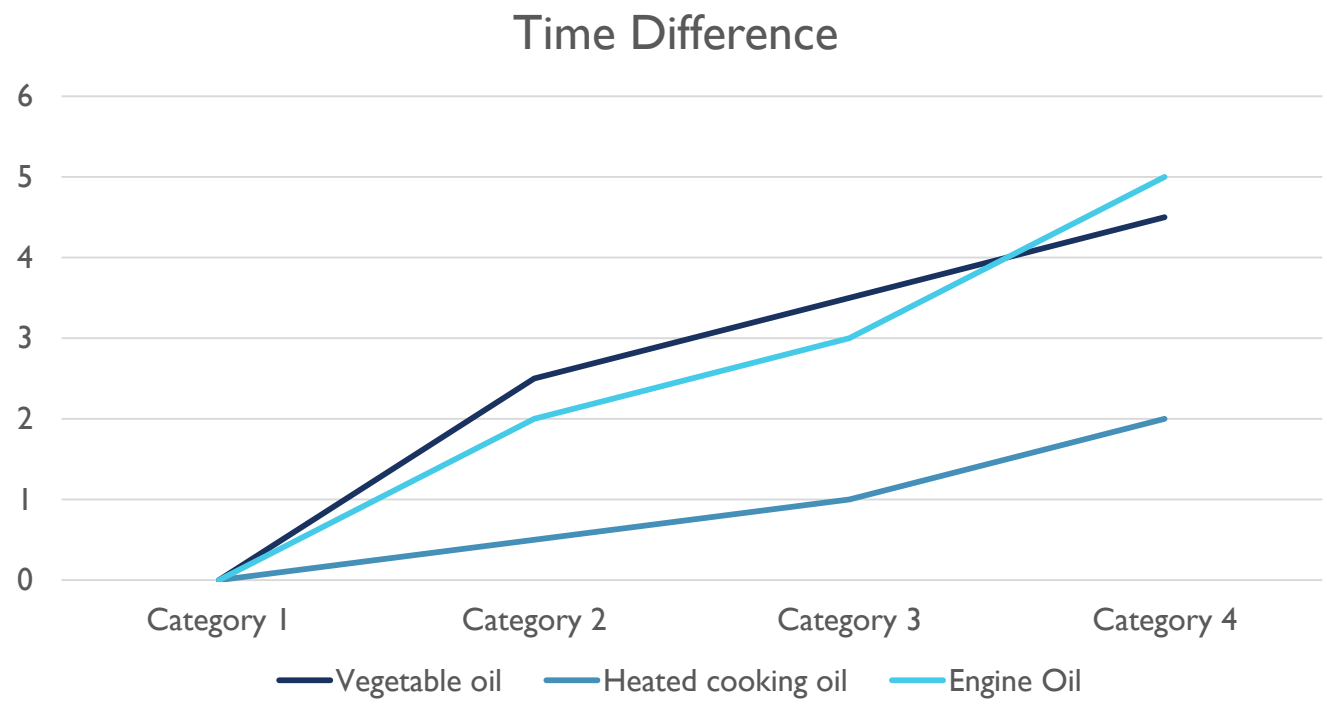
Dilute 1:1 up to 1:20 for all environmental applications

White milky solution after dilution.

Dilute 1:200 up to 1:400 for all environmental applications

African Horizon TECHNOLOGIES

Dissoil Efficiency tests for various oils



Numbers = Days

African Horizon TECHNOLOGIES

Degrading

African Horizon TECHNOLOGIES

Substitute for the Following Toxics

- D'limonene
- Naphtha
- Mineral spirits
- MEK
- Methylene chloride
- Other petroleum-based solvents.
